

AMERICAN MADE

Est. 2002

PROUD TO BE AMERICAN.

Dear Valued Customer,

During this challenging time, it is important to remember that we are all in this together. Healthcare workers on the front lines of the COVID-19 pandemic are heroes, and we are taking extra steps to ensure our customers' needs are fulfilled as the demand for medical imaging equipment grows.

Our passionate pursuit of craftsmanship paired with exceptional performance is why Orthoscan is the global leader in mini C-arm imaging. We are proud to hire American workers, source parts from locally owned businesses, and support the American economy while providing high-quality products to the global medical community.

As the only mini C-arm company made in America, we thank you for considering us for your next mini C-arm purchase.

MICHAEL WATTS

Director of Sales, Southeast region
